StormWind Studios

StormWind Studios is renowned for its engaging and interactive training courses, offering a wide range of IT and business programs. Their live, instructor-led classes and on-demand learning options are designed to cater to diverse learning preferences. With a focus on real-world application, StormWind ensures learners gain both theoretical knowledge and practical skills. Whether you're preparing for professional certifications or seeking to expand your expertise, StormWind provides a dynamic, hands-on learning experience.

Key Features of StormWind Studios:

- Live, interactive training sessions with expert instructors.
- On-demand access to a vast library of courses.
- Flexible scheduling suits busy professionals.
- Industry-recognized certification prep courses.

By collaborating with StormWind Studios we aim to empower our team with the tools and knowledge they need to succeed in a rapidly evolving professional landscape. These platforms provide unparalleled access to world-class training, enabling continuous growth and development.

We are excited about the opportunities these partnerships bring and encourage everyone to explore the resources available through StormWind Studios. Together, we can achieve new heights of learning and professional excellence.

About StormWind Studio

StormWinds courses deliver real-world tips and tricks that students can't get from standard training courses. We know that most networks incorporate the best gear from multiple vendors – so learning about a single technology in a vacuum is just not good enough. Not only do our instructors cover the latest software and its interactions with other common devices, but they also make sure our students understand the "how and why", how to avoid common pitfalls, and they'll cover the important workarounds.

Why StormWinds

With massively engaging content, Hollywood style HD content delivery, and passionate instructors that live and breathe IT, StormWind EPIC Live was designed and inspired by eliminating everything we despise about traditional, boring online and classroom training.

Hollywood Meets IT Training

A Perfect Way to Learn

StormWind Epic LIVE is a highly engaging and interactive web-based learning series, which eliminates traditional corporate training barriers by enabling you to access the best in live, technical and certification training anywhere, anytime. Each class is packed with the latest in Hollywood movie technology filled with live video, multimedia presentations, interactive discussions, and battle-tested live instructors.

EPIC LIVE Features

- Every class filled with the best certified instructors & IT Pro experts on earth
- Mind-blowing, rich media experience using Hollywood technologies creating a personal interaction
- Learn from battle-tested, corporate IT gurus that will show you all their learned tips, tricks and shortcuts
- Engaging hands-on labs and virtual sims to make sure you know this stuff cold
- Train and review on your schedule, anytime, with StormWind *"Instant Replay"*

Instant Replay

Miss a LIVE class or want to review a section of class? No problem. With our exclusive Instant Replay, you can access every LIVE course at your leisure. All the topics, every guest speaker, each tip and all the hands-on labs are at your fingertips. You won't miss a beat.

Hands-On Labs

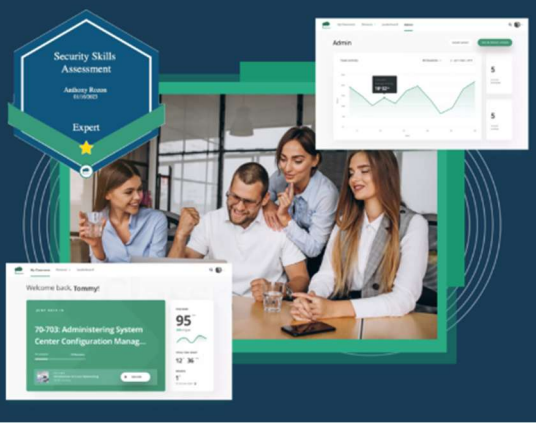
When it's time to put into practice what you learned, there is nothing like in-depth labs. Just like classroom training you'll be taking your new knowledge and applying it into real situations. We have dozens of labs in most courses covering both the certification test topics and the real world application.

Elite Instructors

Ready to learn from literally the best in the world? Instead of having just one or even two classroom instructors in a course, we've created the ideal way to learn by filling every class with numerous best-of-the-best instructors. These pros' literally write the books on Microsoft, Cisco and PMP. And then we bring in proven, corporate IT experts to teach you the real world application and secrets of each topic.

Training Solutions to Upskill Your Team Rapidly

Giving your team access to hundreds of courses, hands on labs, practice material, skill assessments and certified learning that empowers them to grow and be more efficient every day.



Ultimate Access+ Features

Single Sign-on

Keep your end user credentials safe by authenticating with one of our approved IDPs.

Skill Assessments

Learn where your team is proficient and where they need upgrading all in one place.

Success Specialist

Engage with a member from our team personally assigned to help your team skill up rapidly.

Each Package Includes

Live Online Classes

The most effective learning possible happens in a live environment with a world class instructor. StormWind classes run live allowing you to fully interact in the most engaging online learning experience available anywhere. And the short, 2-hour sessions allow you to easily digest the information.

Recorded "Replay" Classes

Your schedule changes all the time and you need a flexible solution. The Replay option allows you to view the recordings of any Live class when it's convenient for you. Stop, start, or speed up at your pace. And all the mentoring, hands on labs and practice exams are still available for maximum flexibility.

Green Screen Technology

Come experience the most incredible, engaging online learning possible through our advanced green screen delivery of content. Using Hollywood technology, we are able to bring the content to life by truly blending the instructor and their content into a gorgeous, quick-learning format that will change the way you think about online training.

StormWind Studios **What's New**

Faster Upskilling of Your Team on Hundreds of IT Courses

StormWind Studios continues its pledge to maintain its status as the leading training company in the IT industry. In 2024, we remain dedicated to offering the most current, effective, and robust learning solutions to our customers. As we stride forward into this exciting new year, we are thrilled to unveil the rich array of premier content and innovations we have in store for you!

Spectre Enhancements

With powerful new features, you can now easily manage users and licenses, assign courses with set due dates, and track your team's progress in real-time. These enhancements make it simpler than ever to stay on top of training goals and ensure your team is advancing with confidence. Spectre is designed to give you more control and insight, making learning management a breeze.

DevOps and Full Stack Developer

Introducing our new Full Stack Development and DevOps programs. Master front-end and back-end technologies like HTML, CSS, JavaScript, React, Express, and MongoDB, and learn essential DevOps practices with tools like Docker, Kubernetes, and Terraform. Gain real-world experience through practical projects and develop the skills needed to excel in the tech industry.

Cyber Range

StormWind's Defensive Cyber Range offers a cutting-edge training environment for all skill levels, featuring dynamic "capture the flag" challenges to uncover cyber threats. Participants master defense tools and techniques through hands-on learning, guided by seasoned security professionals. This platform enhances your expertise, transforming it into a robust asset against evolving cyber risks.

Spectre **Enhancements**

Empower your team with our comprehensive SaaS platform, offering full control over user management and license allocation. Tailor the learning experience to your team's unique needs and drive measurable outcomes. As a manager, you'll have the tools to monitor progress, align training with organizational goals, and maximize your team's potential.

Skills Assessments

StormWind's Skills Assessments

Identify and address your team's training needs with our comprehensive Skills Assessments. We evaluate proficiency across key areas to develop personalized learning plans, enhancing skills and productivity.

Our Assessments Cover:

- Cloud
- Cybersecurity
- Data
- DevOps
- Enterprise Administration
- ITIL and ITSM
- Microsoft Office Skills
- Networking
- Project Management
- Telephony
- Virtualization

Benefit from targeted training aligned with your organization's goals, driving individual growth and success.

StormWind's **Cyber Range**

Cybersecurity Training

Enhance your cybersecurity skills with StormWind's Defensive Cyber Range, a cutting-edge practical training environment designed to keep you ahead of emerging threats.

Realistic Challenges

Built for beginners and seasoned professionals, immerse yourself in dynamic "capture the flag" challenges that simulate realistic scenarios, exposing vulnerabilities, breaches and cyber threats.

Expert Guidance

Elevate your knowledge with invaluable guidance from seasoned security professionals, equipping you with the latest insights and solutions.

Learn Defense Tools

Master top-tier defense tools and techniques through experiential learning, gaining measurable achievements that validate your expertise.

Real World Application

StormWind's Cyber Range provides an unparalleled platform to sharpen your abilities by facing and overcoming real-world challenges, transforming your expertise into an unassailable asset against evolving cyber risks.

Cyber Range **Activities**

Start your cyber range journey by mastering essential tools. Learn Nmap for network scanning, OpenVAS for vulnerability checks, Wireshark for packet analysis, and Splunk for data analytics. These activities will prepare you for more advanced challenges ahead.

Core Security Skills Learned:

- Security Incident and Event Management
- Vulnerability Assessments
- Network and Packet Analysis
- Incident Detection
- Injection Attacks
